

St. Lucie County Board of County Commissioners

Ask the Commission:

... About The Community Parks Master Plan

What is the Community Parks Master Plan? It is the development of a vision and implementation strategy for a parks system in St. Lucie County. The plan will provide for the development of recreation and sports facilities, maintenance, management and use of the parks in St. Lucie County to insure enhancement of the quality of life of our residents.

Do any other communities in Florida have parks master plans? Many communities use this method to meet the recreational needs of their citizens.

How will St. Lucie County pay for the implementation of a county-wide park system? To fund a project of this size will require a voter referendum.

Is there an opportunity for the public to get involved in the Community Parks System Master Plan? There will be five public workshops where the public will be given the opportunity to state the types of recreation they would like to see and where they would like for the parks to be constructed.
